

THE BLAIRMORE ENTERPRISE

VOL. XVII, NO. 29.

THE BLAIRMORE ENTERPRISE, THURSDAY, JULY 22, 1926.

L.O.O.F. PICNIC

The annual L.O.O.F. picnic will be held on Wednesday, July 28th. All Rebekahs and Oddfellows and their families are requested to meet at the Lodge Hall on that date at 1:30 p.m. and bring a cup and spoon for each member of the family; also a lunch basket would be appreciated.

The picnic will be held at the same place as last year, at York Creek.

BASEBALL

A baseball game will be played on the Blairmore diamond on Friday (tomorrow) evening, between Blairmore Seniors and Michol. The game will commence at 6:15. Come out and boost—Tugs 25c.

south of the C.P.R. track. All visiting Rebekahs, Oddfellows and their families are welcome.

REBEKAH LODGE INSTALLS OFFICERS

The officers of Crowview Rebekah Lodge No. 66 were installed at the regular meeting of that lodge on Thursday night last by District Deputy President Sis. Joyce, assisted by number of past grands.

The following comprise the officers for the coming term:

- Junior, Past Grand—Sis. M. Harner.
- Noble Grand—Sis. M. McKay.
- Vice Grand—Sis. N. Evans.
- Rec. Secretary—Sis. B. Howe.
- Sis. Secretary—Sis. J. Patterson.
- Treasurer—Sis. D. James.
- Warden—Sis. F. Wheatley.
- Conductor—Sis. C. Fraser.
- Chaplain—Sis. R. Simister.
- R.S.N.G.—Sis. Archer.
- L.S.N.G.—Sis. Warner.
- Inside G.—Sis. H. Patterson.
- Outside G.—Sis. C. Walker.
- R.S.V.G.—Sis. E. Kidd.
- L.S.V.G.—Sis. O. Hamilton.

At the close of the installation ceremonies, refreshments were served, after which the presentation of a past grand jewel was made to Sister M. Harner, by Sister F. E. Landon, past president of Saskatchewan, who was a distinguished visitor on this occasion. Dancing for an hour or so brought to a close a most enjoyable evening.

FATAL ACCIDENT

NEAR COWLEY

Emil Desharnais, a Lethbridge brewery worker, was instantly killed when an auto turned turtle from the new trunk highway at a point a mile west of Cowley on Sunday night. Other occupants of the car, including the victim's brother, were more or less injured.

Jules Desharnais, a brother, was removed to the Blairmore hospital, where he is said to be improving. Other members of the party proceeded to Lethbridge.

A coroner's inquest is being held before Coroner Dr. Olivier, of Blairmore.

TUXIS AND C.G.I.T.

HOLD CAMP FIRES

Tuxis, Trail Rangers and C.G.I.T. groups, of the United church, are holding Camp Fires every night this week on the grounds at the rear of the church tennis courts and these are proving very interesting and entertaining.

In view of the fact that the young people were unable to go away for the usual camp this year, these Camp Fires have greatly dispelled the disappointment felt by the various groups.

On Monday and Tuesday nights the Rev. W. A. Lewis, of Calgary Victoria United church, was present and gave some interesting talks.

Special programmes are being planned for Thursday and Friday nights.

If weather permits on Sunday next, the regular evening service will be held on the camp fire site and everybody is specially invited to attend this open air service. If the weather is too cold, the service will be held in the church, as usual.

More than 4000 tourists have registered at the Calgary auto camp since July 1st. Many of these have gone on to summer resorts in the mountains.

Lovers of music will tonight have the privilege of hearing the famous Winnipeg Ukrainian girls in a grand concert at the Orpheum theatre, commencing at 8.30. They have a selected programme of melodious Ukrainian folk songs and selections of famous opera. Their mandolin orchestra comprises eighteen pieces.

BLAIRMORE TENNIS CLUB WINS FROM COLEMAN

Another of the inter-club league fixtures to be played on the Blairmore courts was played Wednesday afternoon, when the Coleman Tennis Club played the Blairmore Tennis Club.

There were nine events drawn, but only seven played owing to the fact that Coleman had only the one lady player down. Of the events played, Coleman won two and Blairmore five, as follows:

Men's singles—L. Lindoe vs. R. Pinkney, 4-6, 3-6. E. Price vs. A. Hnatyshyn, 1-6, 0-6. J. McDonald vs. E. McDonald, 6-4, 6-3.

Men's doubles—Gairbraith and Graham vs. Hnatyshyn and Clandfield, 1-6, 2-6. Holstead and Clark vs. Wallace and Rhynas, 1-6, 1-6.

Mixed doubles—Mrs. Purvis and I. Lindoe vs. Miss Marquis and M. Rhynas, 6-3, 8-10, 6-3.

Ladies' singles—Mrs. Purvis vs. Mrs. Kerr, 3-6, 3-6.

SPECIAL TRAIN TO TAKE ELKS TO THE COAST CONVENTION

The Benevolent and Protective Order of Elks' special train is scheduled to leave Calgary for the big international convention at Vancouver Tuesday morning, August 2nd, at 1 a.m. Those taking the trip are requested to be on the train on Monday evening, August 2nd, before midnight. The train is scheduled to stop at Kamloops and Field for a short time, and observation cars will be put on going through the mountains.

The party, which will be made up of delegates from Calgary and other lodges in Alberta, will reach Vancouver on Wednesday morning, August 4th. On that day will take place the Elks' flag and children's day in Hastings park, where 40,000 children will be entertained. This flag day will open the Vancouver exhibition.

The sessions of the grand lodge open on Thursday, August 5th, for delegates attending from all parts of Canada and Newfoundland.

The return trip will be started on Sunday morning, August 8th, the party reaching Calgary on Monday morning, August 9th, at 6 a.m.

Special rates have been secured for the round trip, the price being \$45, inclusive of transportation and sleepers.

There will be a special Alberta band, made up of musicians from most of the lodges in the province, going on the train, and these will aid in making up the massed band, which is to be one of the features of the convention.

Outside lodges are requested to send in notices of reservations required for their members, delegates, musicians and friends at their earliest convenience, as they receive them, to the secretary of Calgary lodge B.P.O.E., Maclean Block, Calgary, where they will be able to secure the special convention tickets for the return trip to Vancouver.

Dr. J. L. Gibson, D.D.G.E.R., is the convener; James Palmer, chairman of transportation, and E. A. Shoebottom, secretary.

Miss Blanche Douglas, former member of the Blairmore teaching staff, but now a valued permanent member of the staff at Calgary, primary department, is spending part of her vacation at the B.C. coast.

Stan Walker, who for the past year or more has been lessee of the Bellevue Inn, this week sold his interest to J. Giolo, of Champion. Mr. Giolo, we understand, arrived today and will assume the management of this popular Bellevue hostelry, while Mr. Walker will leave shortly to take over the Queens hotel, at Delia, Alberta, which establishment he has recently purchased.

DEATH OF WILLIAM ADLAM

The angel of death on Friday last removed from the Pass another landmark in the person of Mr. William Adlam, of Bormis, at the advanced age of eighty years.

Mr. Adlam had lived in the district for about twenty-one years, most of which time he spent on the Adlam ranch near Rock Creek. He had been ill but a short time.

He leaves to mourn him, one daughter, Mrs. J. A. McDonald, Blairmore, and three sons, Walter, at the ranch; William, at Hillcrest, and Robert, at the coast. Another son was killed in the Hillcrest mine disaster in 1914.

The remains were brought to Blairmore, where internment took place on Sunday afternoon. A funeral service was conducted at the United church by the Rev. W. T. Young, and was largely attended.

Mrs. Adlam predeceased her husband by twelve years.

The Blairmore campsite was full to overflowing on Saturday night last, with tourists from east and west.

John T. Stirling, of the mines department, Edmonton, accompanied by Mr. Turnbull, mining expert of India, are, in the Pass this week, looking over the various mines and plants in the district. They are registered at the Greenhill hotel.

AUGUST FIFTH TO EIGHTH BIG DAYS IN BLAIRMORE

Blairmore will be all agog during the first seven or eight days of August, heralding as it does the big Sells-Floto circus and the Elks' annual carnival. Speaking for the circus, it is acknowledged to be the biggest and best on the road today, and the Blairmore Elks' carnival is known throughout the Pass and the province as the biggest and best ever staged by Elksdom. The fact cannot be denied that the Blairmore Elks, according to size of membership, has accomplished more in twenty months than any other lodge in Canada. Every undertaking has been attended with huge success, and the monies derived from various sources have performed great services. Last year's carnival netted in the neighborhood of \$2500, and it is expected that the approaching event will come close to doubling that amount.

We understand that the Sells-Floto Circus Company have offered to co-operate with the Elks' carnival here in every possible way, so that the three days from August 5th to 8th will be the biggest days in Blairmore's history.

Rev. Mr. Lewis, formerly of the Macleod United church, now of Calgary, was in this district during the week, in the interest of the Lord's Day Alliance.

Canada's Gains and Losses

Proportional to its population Canada now has the largest favorable trade balance of any country in the world. During the fiscal year ended March 31, 1926, while imports of goods into Canada substantially increased, the export of Canadian products and manufactured articles increased to a far larger extent, with the result that during the year exports exceeded imports by the huge sum of \$401,134,495. This is the largest favorable trade balance in the history of the Dominion except in the last of the war years, 1918, when enormous exportations of munitions and other war supplies at high prices took place.

During the last fiscal year Canada not only enjoyed a favorable trade balance within the British Empire, but also had a favorable balance with foreign countries, the adverse balance with the United States being more than offset by favorable balances with other foreign countries. The total of Canada's foreign trade last year was \$2,255,359,889, or about \$250 for every man, woman and child in the Dominion.

It is this large favorable trade balance which has contributed so largely to the improvement in Canadian exchange and placed the Canadian dollar at a premium in the United States as well as in other countries. It is a sign of the returning prosperity so strikingly in evidence throughout the country at the present time and a promise of further advances in the future.

But while Canada is thus making really remarkable progress in the markets of the world, it continues to suffer heavy and quite unnecessary and preventable losses at home. Of first importance, because it is the most serious, is the unnecessary loss of life from wholly preventable causes. In previous articles in this column reference has been made to losses sustained through disease which could be avoided by the exercise of proper precautions. Attention at this time may well be directed to the increasing list of killed and seriously injured by life as a result of reckless automobilists during the year. Newspapers are full of accounts of fatal motor accidents, nearly all of which could have been avoided by the exercise of ordinary care. Recently the Railway Commission of Canada issued a bulletin dealing with only one cause of such accidents, namely, the dangerous practices of motorists and drivers of other vehicles at railway crossings. This bulletin records the fact that the Canadian National and Canadian Pacific railways together reported 363 cases of gross negligence by motorists at grade crossings within the last twelve months, and these cases did not cover all crossings, but only a selected few.

One citizen in of much greater value to Canada than many thousands of dollars worth of foreign trade. Each life lost to Canada is a heavy economic loss to the country.

Another source of loss is brought to public attention every summer when the papers are filled with reports of disastrous forest fires in which the growth of centuries is wiped out and untold millions of dollars of timber destroyed. Some of these fires are started by lightning or other natural causes, but many are the direct result of carelessness on the part of campers and others.

It is not through forest fires alone that Canada suffers. The fire which is at work throughout the Dominion every day in the year, with the result that the per capita fire loss of Canada ranks among the highest in the world. Taking Canada as a whole, the annual fire loss is slowly decreasing, having dropped from \$54,379,000 in 1925 to \$48,282,000 in 1926, \$45,908,000 in 1924 and \$40,112,000 in 1923. But this decrease has been largely effected in Ontario and Quebec, the decrease in the former province in the four years being over \$5,000,000 and in Quebec nearly \$4,000,000. The record of the four Western Provinces offers an unfavorable contrast. Fire losses west of the Great Lakes were \$11,768,000 in 1925, rising to \$13,865,000 in 1924, \$12,672,000 in 1923, and \$12,508,000 in 1925. Saskatchewan, Alberta and British Columbia all sustained heavier fire losses in 1925 than in 1922, while Manitoba showed a decrease.

The boisterous life of far too great a proportion of people in this age and country are wastefulness, carelessness, recklessness, culminating in a disregard for consequences, and inevitably resulting not only in individual and national economic loss, but in untold suffering and much loss of life.

Cost Of Britain's Coal Strike

Budget Estimate of \$17,165,000 Has Been Made Necessary

A supplementary budget estimate of \$17,165,000, made necessary by the coal and general strikes in Britain was announced by the government.

Of the total estimate \$15,000,000 is necessary for the purchase of imported coal on the government account. This is done for the purpose of maintaining supplies to public utilities and other essential undertakings. This coal will be sold at a price covering the total costs, and receipts derived from its sales will be used for additional purchases.

The remaining \$2,165,000 on the supplementary estimate was made necessary by the general strike. This item includes the following specific expenditures: Food organizations, \$595,000; transport organizations, \$100,000; coal organizations, \$175,000; publication of the British Gazette, official newspaper, \$80,000; for civil constabulary reserve, \$325,000; for police, \$500,000.

In 1925 Ontario's drink bill was \$5,015,000 and Quebec's \$47,620,000. Rather significant isn't it?

October has the highest record for colds, while June has the lowest.

W. N. U. 1028

Record Trade Balance

Largest Trade Balance Per Capita of Any Country in the World

Canada now has the largest favorable trade balance per capita of any country in the world. For the fiscal year ended March 31, 1926, Canada's favorable trade balance amounted to \$401,134,495, an increase over the previous year of \$118,762,292. Only on one other occasion was the Dominion's favorable balance as large, namely, the war year 1918, when it amounted to \$662,637,214. Among the principal exports are agricultural products which for the 12 months under review totalled in value over \$600,000,000. Of this amount grains and grain products accounted for \$348,842,475, most of which were the products of the fertile farm lands of Western Canada, which now cover 1,000,000 acres still available for cultivation, of which 25,000,000 acres are near railroads and markets. Many of these lands can be bought at prices ranging from \$15 to \$20 an acre.

Neuralgia Conquered Its Pain Destroyed

Magical Results Come When You Apply

NERVILINE

It Acts Quickly

Mr. W. T. Greenway, formerly connected with the Guide newspaper staff, has written: "For twenty years I have used Nerviline in my home, and not for the world would we be without it. As a remedy for all pains, neuralgia, toothache, cramps and disordered stomach, I know of no preparation so useful and quick to relieve as Nerviline." Remember this, wherever there is pain, run on Nerviline, and you will get prompt results—35c at all dealers.

Ship Alberta Coal By Water

Claim Saving of \$3.50 on Coal by the Lake Route

An appreciable reduction in the cost of delivery of Alberta coal to the Ontario consumer can be effected by the employment of waterborne carriage, according to the claims of a deputation from Owen Sound, Ontario, headed by M. R. Duncan, ex-C.P. for North Grey, which waited on Premier Howard Ferguson to urge the government to make representations "whereby the claims for coal transported by the federal authorities before any report is filed on the haulage rates in question."

It was stated that by shipping Alberta coal by water, the price "late down" in Ontario would be \$11.50 per ton, whereas, under the train haulage arrangements which prevailed last winter, the cost would be about \$10 per ton.

HAD NO APPETITE WEAK AND DIZZY

This New Brunswick Woman Restored by Dr. Williams' Pink Pills

Mrs. James Holmes, Brown's Flat, N.B., says: "I am writing to tell you the great good I had through the use of Dr. Williams' Pink Pills. My health had failed and I was troubled with great weakness. I had no appetite and frequently had dizzy spells. The least exertion would make my heart palpitate violently and I was tired at all times. I had suffered a great deal without getting much relief, and was feeling greatly discouraged when I finally decided to try Dr. Williams' Pink Pills. The happy results following the use of this medicine can best be summed up by saying that I am again perfectly well, able to do my household work and enjoy life once more. I feel it a duty to recommend Dr. Williams' Pink Pills to all weak people."

If you have any, or all, of the symptoms above noted, do not delay, bring treatment at once with Dr. Williams' Pink Pills. You will be surprised to note the improvement in your condition after a few weeks. You can get these pills through any dealer in medicine or by mail at 50 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont. If you send your name and address a little booklet, "Building Up the Blood," will be sent free.

Four Months' Immigration

An increase of 81 Per Cent. Over Figures For Last Year

A compilation of immigration to Canada for the first four months of the calendar year 1926 shows an increase of 81 per cent. over the same four months in 1925. The actual figures are 39,413 for four months of 1926 compared with 21,775 in the same period a year ago. There have been increases in every month of the year ranging from 16 per cent. in January to 132 per cent. in March. For the four months in question British immigration increased from 9,219 to 13,923; immigration from the United States increased from 4,778 to 5,797, and from other countries increased from 7,419 to 19,722.

To Stop Run Running

Britain to Co-operate With American Officials to Discourage Trans-Atlantic Bootlegging

British officials will confer with General Lincoln C. Andrews, chief of the prohibition enforcement service of the United States, who is visiting England to obtain the complete cooperation of the British Government in discouraging the trans-Atlantic bootlegging as well as run-running between the United States, the Bahamas and Canada.

It is emphasized that no new liquor treaty is to be expected as an outcome of General Andrews' visit. The United States enforcement officials are understood to desire only to work in greater detail than at present the arrangements now in force for decreasing liquor smuggling. They also desire to perfect a system of exchanging information which will keep the prohibition authorities in close touch with run running cargoes leaving British shores.

The British Government has indicated willingness to co-operate with the enforcement authorities in the following three ways:

- 1—United States cutters will be permitted to enter British territorial waters in the Bahamas.
- 2—Transfers to the British flag of vessels intended for the smuggling trade will be prevented.
- 3—Ship masters will be prosecuted for making false declarations regarding their destination.

Commands Cruiser Repulse

Capt. Evans Has Many Noteworthy Achievements to His Credit

Captain E. B. Evans, C.B., D.S.O., was recently appointed to the command of the Canadian cruiser Repulse, in the Prince of Wales made his tour to Africa and South America.

Captain Evans' achievements in Antarctic exploration will be easily remembered. He took over the command of the 1912 expedition after the death of Captain Scott. He commanded the Itroks in 1917, when with the Swift he engaged and defeated six German destroyers. Five years ago he was awarded a special gold medal by the Royal Humane Society for saving life at a disaster in the China seas.

Nothing as Good for Asthma. Asthma remedies come and go but every Asthma sufferer who has tried Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further relief can be asked of its remarkable merit. It relieves. It is always the same, unvarying quality which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

Cheats Executioner

Cuban Sentenced to Die by Garrote Method Hangs Himself

Faced with death in the terrible Garrote, Segundo Rosales, convicted of the murder of his wife, a wealthy Cuban, hanging himself in his cell at Ciego de Avila, in the province of Santa Clara, Cuba, where he was held awaiting sentence.

On June 30 last, his fellow kidnaper, Con, also convicted of the same crime, was hanged, and for the same reason—fear of the Garrote.

An active campaign is being waged in Cuba to abolish the Garrote as a method of execution.

Veterans On the Land

Soldier Settlement Scheme is Showing Good Results

Of the \$100,000,000 advanced by the Federal Government to veterans of the great war placed on farming land, \$20,000,000 has already been returned to the Dominion's treasury, according to Major John Barnett, of the soldiers' settlement board. Major Barnett further stated that the government's scheme was showing promising results and that 30,000 ex-soldiers were now helping to cultivate Canada's vast farming areas.

Pickle Fashion Affects Trade

That the instability of industries may often be attributed to fickleness of fashion is evidenced by the fact that shingling has, naturally, killed the halibut trade, and seriously reduced the herring and cod fisheries. The "slip-on" dress, button makers have seen dwindling profits for the last three or four years, whilst hooks and eyes have vanished, of course.

Asthma!

Sprayed Minard's on brown paper and apply to the throat. Also inhale. Quick relief assured.

MINARDS
"KING OF PAIN"
MINIMENT

Minard's Liniment for Sore Feet

Do flies like your cooking?

REMEMBER, flies are more than troublesome. They come from filth to food. Get rid of them with Filit.

Filit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Filit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Filit on your garments. Filit kills moths and their larvae which eat holes. Extensive tests showed that Filit spray did not stain the most delicate fabrics.

Filit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind, kills all insects—and does it quickly. Get a Filit can and sprayer today.

STANDARD OIL CO. (NEW JERSEY)

Canada Colonization Association

Valuable Work Performed By This Organization In Western Canada

The annual report of the Canada Colonization Association, which organization is operated without profit or gain, is a valuable contribution to the settlement of the Pacific Northwest. The association is responsible for settling 612 families on 150,555 acres of land in the Canadian west, as compared with a settlement of 623 families on 153,271 acres in the preceding year. It is conservatively estimated that the total of land and equipment transactions in the two years was in the neighborhood of \$15,000,000. It is interesting to note that in its last month of operation 67,184 acres of land were settled by 261 families, 102 in Alberta, 99 in Manitoba, and 60 in Saskatchewan, through the instrumentality of the association.

The services which the Canada Colonization Association is able to render are many ways, and for the same reason—fear of the Garrote. An active campaign is being waged in Cuba to abolish the Garrote as a method of execution.

On June 30 last, his fellow kidnaper, Con, also convicted of the same crime, was hanged, and for the same reason—fear of the Garrote.

An active campaign is being waged in Cuba to abolish the Garrote as a method of execution.

Veterans On the Land

Soldier Settlement Scheme is Showing Good Results

Of the \$100,000,000 advanced by the Federal Government to veterans of the great war placed on farming land, \$20,000,000 has already been returned to the Dominion's treasury, according to Major John Barnett, of the soldiers' settlement board. Major Barnett further stated that the government's scheme was showing promising results and that 30,000 ex-soldiers were now helping to cultivate Canada's vast farming areas.

Pickle Fashion Affects Trade

That the instability of industries may often be attributed to fickleness of fashion is evidenced by the fact that shingling has, naturally, killed the halibut trade, and seriously reduced the herring and cod fisheries. The "slip-on" dress, button makers have seen dwindling profits for the last three or four years, whilst hooks and eyes have vanished, of course.

Asthma!

Sprayed Minard's on brown paper and apply to the throat. Also inhale. Quick relief assured.

Battle With Sharks

Seaman Falls Overboard In Tropical Sea and Has Thrilling Adventure

A thrilling story of a two-hour fight for life against sharks and birds of prey in the pitch darkness of a tropical sea at midnight was told by officers of the British steamer Ripley Castle. The big freighter was just south of the equator bound from Philadelphia to Capetown when Tony Madison, 26-year-old seaman, lost his balance and fell into the water.

In the darkness his fall was unobserved and he was not missed until an hour later when the ship put about and slowly retraced its course. In the morning, faint cries were heard. Two buoys with flares were tossed overboard and Madison was seen struggling in the water. When the seaman was pulled aboard, both legs were bleeding from shark bites and his face was torn and pocked by great birds which had swarmed down on him.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

May Visit Australia

Premier Stanley Bruce, of Australia, declared that arrangements were nearly completed for his visit of a member of the royal family to perform the ceremonies at the opening of the parliament in the new capital, Canberra. He anticipated that the Duke of York would visit Australia for the purpose.

Enlarge Oil Refineries

The Alberta Refineries, Ltd., one of the newest of Edmonton's industries, announces that it will double its oil refining capacity.

One trouble with the "still small voice" is its emphatic way of refusing to keep still.

FOR "Cholera Infantum" MOTHERS SHOULD USE

D'FOWLER'S EXT-OFT WILD STRAWBERRY

This valuable preparation has been on the market for over 50 years, and has no equal for offsetting the vomiting, purging and diarrhoea of cholera infantum.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

SASKATCHEWAN FARMERS DECIDE TO AMALGAMATE

Saskatoon.—The Saskatchewan Grain Growers' Association and the Farmers' Union of Canada in Saskatchewan, by joint action, passed at the convention here, have agreed to amalgamation.

Many dramatic scenes have been enacted at conventions of the grain growers in past year, but it is safe to say records contain no entry parallel to the scene that unfolded itself as fusion actually took place.

As the formal resolution was presented which would give effect to the desire of the delegates for fusion there was a slight hesitation on the part of the chairman reading motion for the "Are you ready for the question?" was asked.

A second or so pause and from the hall came a voice, "Question," the vote was taken. Again, there was a pause. The cheers broke out. Ladies waved their handkerchiefs and deep husky voices roared out cheers. The strain was over. Amalgamation was consummated.

The formal resolution consummating union, read as follows: "Resolved, that we, the Farmers' Union of Canada and the Saskatchewan Grain Growers' Association, in joint convention assembled, hereby jointly approve of and adopt the basis of amalgamation as agreed upon in separate convention, and authorize and instruct the board of trustees appointed in pursuance of section 10 of the said agreement and our respective boards and executives to make all necessary arrangements, including the procuring of all necessary legislation to consummate the said amalgamation."

Executions In Turkey

Thirteen Men Are Hanged In Plot Against Mustafa Kemal Pasha. Smyrna, Asiatic Turkey.—Thirteen men, all of whom members of the Turkish Parliament, were hanged at the street corners along the waterfront at dawn for conspiring to assassinate their president, Mustafa Kemal Pasha. All died protesting their innocence.

Umbelot Bey, former minister of the interior and one of the leaders of the Union Progress party, warned his executioners that the wholesale hangings would bring misfortune to New Turkey. His speech was cut short by the noose.

Among these hanged were: Chukri Bey, deputy from Esmeid; Zia Hourchi Bey, a former deputy, and Ruchi Pasha, deputy from Erzerum. Evidence was adduced at the trial to show that the plot was conceived last December by a group of individuals closely associated with the opposition party.

Winter In Argentina

Buenos Aires.—The southwestern section of Argentina is experiencing what has been described as one of the severest winter in the last 25 years. Snow has been falling in some sections for more than a week, paralyzing all activities and causing a food shortage at some points. The temperature has fallen eight degrees below zero.

To Contest Every Ontario Riding. Toronto.—While there was no official statement forthcoming at the close of the meeting of the management committee of the Liberal Association here, it was said that decision to run a Liberal party candidate in every Ontario riding was unanimously reached.

Probe Sanity Claim

Home.—Two psychiatrists have been appointed a committee to determine whether the Hon. Violet Allard Gibson, sister of Lord Ashbourne, was mentally irresponsible either partially or totally on April 7 when she shot and slightly wounded Premier McLean.

Philippines Want Independence. Manila.—The national supreme council, representing the combined Filipino political parties, has decided to ask the Philippine legislature to adopt a resolution reiterating the desire of a Filipino people for immediate and absolute independence.

Winnipeg City Clerk Dead. Winnipeg.—Charles J. Brown, city clerk, Winnipeg, for 43 years, and one of the oldest pioneers in Manitoba, died here, aged 71. He had been ill several weeks.

Harvesting Fall Wheat

Lethbridge.—Fall wheat harvesting began here on the farm of G. C. Beedel at Taber. Second cutting of alfalfa began on the same farm a week ago.

W. M. O. 1888

Good Roads Convention

Plan to Hold Dominion Meet in Edmonton in September. Edmonton.—Preliminary arrangements for the annual convention of the Canadian Good Roads Association in Edmonton during the coming autumn have been made between officials of that organization and the Provincial Government. S. L. Squire, deputy minister of highways for Ontario, and William Flahay, Toronto, both members of the executive of the association, were in the city and conferred with Premier Brownlee, and Hon. Alex. Ross in regard to the coming event.

The date for the convention has not yet been set but it will be toward the end of September. The exact date will be announced later by the Good Roads Association. About 700 delegates from all parts of Canada are expected to attend, and the meetings will run into three days. Western road problems will be features of the programme and a number of addresses and papers will be given on questions of particular interest to road builders and road users in Alberta.

Coal Strike May Continue

Winston Churchill Is Not Hopeful Of An Early Settlement. London.—Winston Churchill, chancellor of the exchequer, addressing a meeting of London bankers, thought the coal crisis would probably continue for some time longer. Although it was producing grave and deepening effects on the national wealth, it was a remarkable fact, he noted, that neither the general trade nor the general finance of the country had yet suffered nearly so severely as had been expected when the strike began. Instead of the situation of the country where trade unionism was the most powerful.

Empire Wireless Delayed

System Expected To Be In Operation Before the End of the Year. London.—The postmaster-general has announced in the House of Commons that there had been some delay in completing the imperial wireless beam stations utilizing the Maycan system of directional sending. It was a reasonable expectation, however, he added, that all of the four stations, including the stations at Cape Town, South Africa, Australia and India would be operating before the end of the present year.

Clinic For Indian Babies

Port of Spain.—In the interests of Indian child welfare, Dr. H. C. Hall, of Port of Spain, co-operating with the department of public health, held a clinic of Indian babies, July 13, at Ashley's Point, about ten miles west of Port of Spain. Dr. H. C. Ferguson, medical superintendent of the medical staff at the San Antonio. In all, sixty-seven babies were examined.

Steamer Abandoned

London.—Lloyd's dispatch from Jibuti, East Africa, says the French mail steamer Fontainebleau is ashore and has been abandoned. The passengers and crew were saved, together with a small amount of cargo. The mail was lost. The dispatch states the steamer is expected to be destroyed.

New Elevator For Port Arthur

Port Arthur, Ont.—Arrangements have been completed under terms of an agreement with the city for property and street approaches for the Northland-Elevator Company to build a 1,600,000-bushel plant in Port Arthur next season.

Wins International Scholarship

Ottawa.—Miss Isabel Stewart Manson, of Hochelagen, Sask., has been awarded an international scholarship and will sail for England this week. She is a Canadian, a B.A. of the University of Saskatchewan and a graduate of the Presbyterian Hospital of New York city.

Denial Is Made

Lebanon.—Official denial has been made of a report republished in Paris that General Gomez de Costa, deposed dictator, had been liberated by the crew of the cruiser Carrasco Armado, on which he is being taken to exile in the Azores.

Building More Motorships

London.—The remarkable development in construction of motorships is the outstanding feature of Lloyd's shipbuilding returns for three months ending June 30 which were published here.

Advance Polls

Ottawa.—Advance polls will be provided for the accommodation of new voters who expect to be absent on election day in the forthcoming elections. Col. O. M. Higgs, chief electoral officer, announced.

Omen Of Good Luck

Supporters of Meighen in Ottawa Think Thirteenth Lucky Date For Government. Ottawa.—Is the thirteenth of the month a lucky or unlucky date on which to form a government? Just thirty years ago, July 13th, the late Right Honourable Sir Wilfrid Laurier formed his administration. He himself had been sworn in as president of the private council two days previously. His government retained office for fifteen years, going out of power in the reciprocal election of 1911.

Supporters of the new Meighen Government point to this as an omen of good luck for the present administration.

Stop Sunday Dancing

Move to Forbid Public Dancing in Ontario On Sundays. Toronto.—A definite decision forbidding public dancing in the province of Ontario on Sundays was made by Hon. W. F. Nickle, attorney-general, who stated that it would not be necessary for municipalities to refuse licenses to places where it took place. Nickle is certain now that dancing in public places can be stopped by provincial statutes.

The attorney-general made his pronouncement following the hearing of a deputation from the city council of Niagara Falls, Ont.

FINANCIAL CRISIS IN EUROPE IS CAUSE OF ALARM

Brussels.—Three virtual dictatorships loom in Europe as a direct outgrowth of the financial crisis. The Belgian Chamber of Deputies adopted on first reading a bill which would give King Albert full powers to issue such decrees as he may see fit for stabilizing the exchange.

The French minister of finance, M. Caillaux, will submit a similar bill to the finance committee of the French Chamber. Meanwhile, Italy is discussing whether Premier Mussolini and his cabinet should be made responsible to the King and not to the legislature, thus giving them extreme authority to deal with the situation.

The French financial crisis apparently has been outdone only by that of Belgium, whose franc is rapidly declining in value.

Institution of a new gold basis currency is understood to be the principal remedy upon which government experts pin their faith to extricate Belgium from the financial maze into which she has fallen. Steps to introduce it will be taken as soon as possible after the Full Powers Bill has become law.

Globe Circling Record

Evans and Wells Circumnavigate Earth in Less Than 29 Days. New York.—More than a week was out from the time in which man can circle the earth when Edward S. Evans and Linton O. Wells arrived at the Pulitzer building here. They left on their world circling race against time at 1:20 a.m. June 16, making their elapsed time 23 days, 14 1/2 hours.

The previous record of 33 days, 21 hours and 55 minutes was made in 1913 by John Henry Mears.

Strapping Scots for the Prairies

"We will do our best and try to make good." With these words the lads, pictured above, stepped aboard the Canadian Pacific S.S. Montrose bound for Canada where they will take up farming. They are all well-built Scot boys and are in the best of physical condition, the labor work on the ship has been very profitable and they are very optimistic and anxious to commence the first part of their long journey. From left to right, the photograph shows: Captain C. A. Allen, Canadian Government Agent; and the six study Scots lads: E. Ferguson, Edinburgh; A. Bryde, of Helsingburg; A. McCole, D. Robertson and J. McCole, of Glasgow; and W. Thomson, Castle Cary.

SAPIRO MAKES PLEA FOR UNITY AMONG FARMERS

Saskatoon.—"My sermon to you tonight is this: Let nothing stand in the way of uniting your farmers' organizations. That is my message to you tonight."

In these words, Aaron Sapiro, co-operative marketing exponent, gave to the people of Saskatchewan the message he had come thousands of miles to deliver.

In the presence of hundreds of people, crowded together, Mr. Sapiro pleaded with all the power at his command with the farmers of Saskatchewan to consummate union during their convention.

Mr. Sapiro had lost none of his magnetism. From the moment he rose to his feet until he sat down an hour later his vast audience literally hung on his words and listened eagerly to the message he brought.

"The last time I spoke to you I held out the example of the U.S.A. in co-operative marketing for you to follow. Tonight I tell you of the failure of some of these wheat pools in order that you might profit by their example and not fall into their ways," he said.

Mr. Sapiro plainly expressed his opinion of the workings of some of the co-operative organizations in his own country. He held up the tragic career of some of them as examples of what results, when, as he put it, the true co-operative spirit is lost. "I pleaded with you tonight not to lose that co-operative spirit. In two years you have made yourselves the envy of the whole world by reason of what you have accomplished by means of your pool. I shall not rest content until you have fostered that spirit to the extent that on every Saskatchewan farm, in every Saskatchewan home, there shall be the true spirit of co-operation, the co-operation of human life as you have co-operated in wheat. When the evening's meeting opened, Dr. Walter Murray, president of the University, took the chair. Following the civic ceremony of making Mr. Sapiro a freeman of Saskatoon, A. J. McPhail briefly spoke of the wheat pool and without further delay Mr. Sapiro addressed the audience.

The vast audience rose on mass and Mr. Sapiro was formally introduced and at the close of his address was greeted by Dr. Murray as a fellow citizen from whom he called for British cheers and tigers.

New Governor-General

Viscount Willingdon Will Likely Be Sworn In At Quebec.

Quebec.—Viscount Willingdon will be sworn in as governor-general of Canada as soon as he reaches Quebec, it is believed.

The ceremony of administering the oath of office to the governor-general was performed in the ancient capital in the cases of the Duke of Devonshire and Baron Hyls of Vimy and the belief here inclines to a continuance of this procedure.

Many Treated For Rabies

Montreal.—One hundred and forty-seven cases have been treated in the rabies clinic at the Royal Victoria Hospital since the outbreak of the rabies epidemic. The majority of the cases were serious, patients having large lacerated wounds, while in some instances they had been bitten through the muscles.

Forest Fires Take Heavy Toll

Nine Lives Are Lost In Conflagration In Mountains.

Calgary.—Leaving a trail of smoke, flames, forest fires have been ravaging the Pacific Northwest for the past few days.

Trapped in a motor car, between Banff, Alta., and Windermere, B.C., two women and two children were burned to death this afternoon. The dead, Mrs. Leslie Watts, her two children, and Mrs. Clifford Nesbitt, all of Dryden, Sask., were returning from an automobile trip to the coast.

The women were accompanied by their husbands, Leslie Watts and Clifford Nesbitt. The men were badly burned about the face and arms and are in hospital at Invermere, B.C.

According to a report by Corporal Taylor, of the R.C.M.P., who investigated the scene of the tragedy, the party, who had been warned at the west entrance of Kootenay Gorge, stalled their car when they tried to turn around the road when they saw that the flames were sweeping down upon them.

Imperial Conference

No Reason To Think That Meeting Will Be Postponed.

London.—The Daily Telegraph says the rumors which have been prevalent here for the past few days to the effect that the imperial conference would be postponed because of the unsettled parliamentary situation in Canada are unfounded. The Canadian authorities have not requested that the date for the convening of the conference be set back and there is no reason to believe that representatives of the Dominion will not be in attendance, the paper declares.

No Rust Damage

Saskatchewan Has Escaped Black Stem Rust To Date.

Saskatoon.—No indications of black stem rust have been found in the province to date, according to a statement issued by Dr. Guthrie, Sanford, in charge of the Dominion laboratory plant pathology, at the University of Saskatchewan.

Light infections of leaf rust have been reported, but, however, as this form of rust is not of a very serious nature, it is not likely that any great damage will result.

MEIGHEN'S NEW CABINET NOW ASSUMES OFFICE

Ottawa.—The following ministers attended on his excellency the governor-general and accepted office in the new government:

Hon. Arthur Meighen, prime minister, secretary of state for external affairs, and president of the privy council.

Hon. Sir George Perley, secretary of finance.

Hon. R. B. Bennett, minister of justice.

Hon. H. G. Guthrie, minister of national development.

Hon. H. H. Stevens, minister of customs.

Hon. S. F. Tomin, minister of agriculture.

Hon. W. A. Black, minister of railways.

Hon. R. J. Mansel, postmaster-general.

Hon. J. D. Chaplin, minister of trade and commerce.

Hon. George B. Jones, minister of labor.

Hon. E. B. Ryckman, minister of public works.

Without portfolio: Hon. Sir Henry Drayton, Hon. Donald Sutherland, Hon. R. D. Murdoch, Hon. John A. Macdonald.

The portfolios of marine and fisheries, immigration and colonization, health and soldiers' civil re-establishment and the post of solicitor-general are left unfilled for the present. Three of these will be allotted to the provinces of Quebec of which it is expected two will very shortly be filled. It is intended that the portfolio of the interior shall go to the province of Saskatchewan.

Hon. Dr. Patenaude will be acting minister of marine and fisheries; Hon. R. B. Bennett will be acting minister of the interior; Hon. Dr. Mor and of health and soldiers' civil re-establishment, and Sir Henry Drayton of immigration and colonization.

Dr. J. L. Chaplin, of Ottawa, will be made a private councillor.

In the absence of Mr. Meighen during the course of the campaign, Sir Henry Drayton will be acting minister.

OCTOBER FIFTH PROPOSED DATE EMPIRE PARLEY

London.—Premier Baldwin told the House of Commons that the proposed date of the forthcoming Imperial Conference was October 5.

Questioned regarding the subjects to be discussed at the conference, he said it had been agreed that the agenda should include a general review of the policy of defence and the questions arising from it. The conference also would consider the development of systems of communications and solidifications between the governments of the empire on matters of common concern.

Premier Baldwin said that the following would be the chief questions on the agenda of the Imperial Conference:

1. Overseas settlement.
2. A general review of inter-imperial trade, present and future, including a discussion of the work of the imperial economic committee and the position of the empire marketing board.
3. Imperial communications, including the work of the imperial shipping committee and discussion of the question of commercial air services.
4. Research.
5. Exhibition within the empire of empire-produced motion picture films.
6. The question of securing an agreement regarding the liability of state enterprises to taxation.

Attempt To Swim Channel

Birmingham Swimmer Obligated to Abandon Contest After Nine Hours in the Water.

Dover, Eng.—The English Channel has turned back the first of its would-be conquerors this season.

The attempt was made by Frank Perks, a well-known Birmingham swimmer, "Perks" started from the French side at midnight under apparently favorable conditions. A heavy northwesterly wind sprang up, however, and "Perks" was forced to abandon the attempt after nine hours in the water.

Celebrate Bastille Day

Paris, France.—National holiday was marked by the greatest Bastille Day parade in recent years, with the Spanish dictator-general, Primo de Rivera, and the Sultan of Morocco, Mulai Yusuf, as guests of honor. Communist demonstrators seized the occasion for a demonstration, and 20 persons, including M. Joly, a member of the municipal council, were arrested for joining at the salute when he drove up with President Doumergue to review the troops.

Would Study U. S. Methods

London.—The Daily Mail says there has been discussion in ministerial circles of the desirability of sending a commission to the United States to study the methods whereby highways are earned there. The mission would be similar in character to that recently sent by the Mail. The paper says no decision has been made but if it is sent it is expected that Great Britain, such a commission probably will be sent in the fall.

Prohibition Army

Washington.—Congressional prohibition "super" army is going forward swiftly with the issuing of orders for enlistment of 150 new men for New York and 15 for Los Angeles. The additional force, part of the 996 new men authorized by Congress at the request of Assistant Secretary Andrews, will be put into action as soon as possible.

Will Stop Contests

Winnipeg.—Editors of the O.P.P. Bulletin, the Telegram and the Guardian pleaded guilty to publishing police notes in charges of questioning common betting houses in connection with publication of coupon papers and were given two years suspension of publication. Sentences were suspended on the understanding that they would discontinue the contests.

May Prosecute Officials

Vancouver.—Whether the officials of the C.P.R. should be prosecuted for alleged failure to comply with the railway board's grain rate equalization order is to be determined by the full board upon the return to Ottawa of the three commissioners now nearing completion of their western tour.

Edmonton Exhibition

Edmonton.—All attendance records for the Edmonton exhibition were shattered when 32,166 persons turned out for citizens' day at the fair. The previous high record was 27,552, set last year. Ideal weather conditions prevailed.

FAMOUS BRITISH NAVAL FEAT VIVIDLY REPRODUCED

The British naval raid on Zeebrugge, the glorious exploit of the British Navy on St. George's Day, 1918, and the success of which turned the tide on the western front, has been reproduced in moving pictures in a most wonderful way.

The whole story is thrilling from start to finish, permeated with that British spirit that won the war. The story of Zeebrugge was reproduced under the guidance of the officers of the British Admiralty, surviving officers and marines, who actually took part in the heroic raid, going through their acts again, but this time before the camera.

Some idea of the tremendous task undertaken to put "Zeebrugge" on the screen may be gained when it is known that it cost \$2,500,000 to reproduce, and then the Admiralty loaned the ships, etc., so that the British people may get the historic value of the raid.

The whole action at Zeebrugge is accurate in every detail, the soldiers on the deck being real soldiers, and the smoke screen being supplied by Alan Brock, of Brock's Fireworks, the brother of the wing commander who lost his life gloriously during the fighting on the Mele.

The picture was first shown at the Marble Arch Pavilion, London, England, where their Majesties the King and Queen witnessed it, and incidentally saw their first moving picture. From The Toronto Evening Telegram.

"Zeebrugge" will be shown at the Orpheum Theatre on Tuesday and Wednesday of next week, July 27th and 28th.

EARLIER DELIVERY OF CABLE LETTERS

Cable letters to Great Britain, Ireland and Holland will hereafter be delivered on the morning following the date of filing or as soon thereafter as their transmission is completed up to one p.m. Greenwich. This information is contained in an announcement received by the Canadian National Telegraphs from the Anglo-American Telegraph company, which also states that cable letters will no longer be held until the uniform hour of noon. On messages such as these the rates are \$1.10 for the initial 20 words to Great Britain and Ireland, and \$1.60 to Holland. Excess words costing six and eight cents respectively.

ELECTION FIRED FOR TUESDAY, SEPTEMBER 14

TORONTO, July 20.—The Mail and Empire, Conservative, publishes the following on its front page this morning:

"The voters of Canada will go to the polls in the approaching general election, on Tuesday, September 14th. Official news of the selection of this date by Premier Meighen for the purpose of voting reached high Conservative circles here last evening, and came with an authority which left no room for doubt as to the accuracy of the report. The formal announcement of the date, it is understood, will be made by Premier Meighen when he addresses a public meeting tonight in Ottawa, and formally opens the Conservative campaign."

A bootlegger never is down and out. When he's down he's in.

The annual convention of the Canadian Good Roads Association will be held in Edmonton some time in September, the exact date to be announced shortly. Members of the executive committee of the association visited the province recently to arrange for the convention. About 700 delegates are expected to attend.

C. W. Higgins, western region advertising agent of the Canadian National Railways, Winnipeg, will represent the system on the fortnight's tour of Pacific coast cities by the American Association of Railway Advertising Agents as guests of the Chambers of Commerce of Portland, San Francisco, Seattle, Vancouver and Victoria.

Chief Spence announces that he has one hundred and seventy-seven special constables engaged to visit the ten thousand homes in the Crows' Nest Pass on August 5th, 6th and 7th, with instructions to arrest every grown up who refuses to attend the Elks' carnival and at the same time present every kiddie under forty years of age an invitation to be present and receive a free gift.

The number of appendicitis cases operated on in the United States and Canada during 1925 was greater than any other single type of abdominal surgery, Dr. LeGrand Guerry, of Columbia, S.C., told members of the American Surgical Association at their meeting in the Hotel Statler, Detroit. Over 400,000 cases of appendicitis were reported, Dr. Guerry said, from which 25,000 deaths resulted.

Mr. Peter D. S. Crerar, who is in the district mustering candidates for a local lodge of the Native Sons of Canada, dropped into our office during the week and in a very hearty manner stated how pleased he was at the reception which has been accorded him by the people of the district. Both Canadian-born and Britishers, whom he has interviewed during his canvass of Blairmore and district, have treated him in such a way as to make him feel it is more of a holiday trip than a business one and each one has got behind his plan for a lodge in Blairmore with the greatest enthusiasm and within a short time a lodge will be instituted here, as Mr. Crerar has already sufficient applications for this purpose. He wishes us to thank the people of Blairmore for their courteous treatment of him and for their generous support of the project in view.

U.S. FARMERS COMING TO CANADA

Marked activity in the movement of agricultural settlers from the United States to Canada is noted by the Dominion government department of immigration and colonization. In the month of June, 195 settlers, who with their wives and families represent 312 persons, came into Canada from Fargo, North Dakota, bringing with them cash and effects to the value of \$495,550. The Canadian National Railways colonization officials at St. Paul, Minn., were responsible for a large number of these farmer settlers emigrating to the Canadian prairies.

Hon. Archie McLean, former Alberta minister of public works, and one of the best known old-time ranchers in Alberta, has been appointed manager of all the interests of the George Lane estate in Alberta, including the Bar-U ranch, adjoining the Prince of Wales' ranch near High River. The estate has in the neighborhood of 100,000 acres.

A placer gold rush is said to be in progress ten miles out of Timmins on the banks of the Grassy river in Ogden and Price townships, Ontario. The first claim was staked in April last and now that the news has leaked out, scores of prospectors are engaged in surveying the area and forty-five claims have been recorded at the recorder's office at Timmins.

Blairmore : : : Alberta

COWLEY HAPPENINGSH. D. McMillan and M. A. Murphy
were Blairmore visitors on Sunday.Mr. and Mrs. Hacker have left the
Cowley hotel and taken a position in
Blairmore.Mrs. Goldie and son James, of
Lethbridge, were recent guests of
Mrs. Swart.Mrs. R. French and young son have
arrived for a visit with her mother,
Mrs. McEwen.Rev. W. M. Chalmers and three
sons, of High River, renewed ac-
quaintances here last week.Rev. and Mrs. Griffith left Monday
morning by motor for San Diego,
California. They will take a six
weeks' holiday.Mrs. Gordon Robinson is reported to
be making good progress toward re-
covery, after her serious operation
at the Galt hospital.Mr. and Mrs. C. J. Bundy, James
Leigh and Ed. Baines have returned
from a two weeks' vacation at Van-
couver and other points. They report
a wonderful time.The Women's Institute are holding
a dressmaking class all week, under
the capable supervision of Mrs. Dav-
idson, of the home bureau service of
the department of agriculture.Miss Hilda Hannan, who has been
studying advanced piano under Prof.
Higgin, Calgary, has been successful
in her Toronto conservatory exams,
having passed with honors in form
and history.The Union Sunday school picnic,
held at the river at Snyder's on Fri-
day, was a success. Owing to the
warm weather, much ice cream and
pop was consumed. Races and games
for the grown up youngsters were
the order of the day, also a ball
game, girls versus boys, the girls
winning by a large score.**ALBERTA PREMIER****COAL PRODUCTION**During 1925 Canada produced 13,
134,968 tons of coal, valued at \$49,
251, 961, according to a report issued
by the Dominion bureau of statistics.
Alberta held the premier position
with an output of 5,869,031 tons,
which was 679,302 tons above the
1924 production. British Columbia
showed a slight advance of 2,842,262
tons in 1925.There were 25,032 people, includ-
ing 1542 salaried employees, engaged
in or about the mines during 1925,
to whom \$33,200,369 was paid in
salaries and wages.**Poodles
Hanneford**Circus and vaudeville fans all over
this great North American continent
know "Poodles" Hanneford, comed-
ian-rider, whose antics in the sawdust
ring have made so many thousands
gasp and then shake with laughter at
his daring stunts and original com-
edy.Hanneford and his troupes of ring
riders are again with the Sells-Floto
circus, coming here Thursday, Aug-
ust 5th. Hanneford is an originator
with many "copyists." Practically
every rider comedian in the country
uses "Poodles," who prefers to
ride on the tail or head of his steel,
is the one with Sells-Floto. Three
rings of daring equestriennes are seen
in all performances.**POSSIBLE NEW INDUSTRY
FOR BRITISH COLUMBIA**The establishment of a sugar beet
industry in British Columbia will be
undertaken if the provincial govern-
ment will subsidize the production of
sugar at the rate of \$50,000 a year.
W. H. Watson, head of a Vancouver
syndicate, informed the cabinet re-
cently. The proposition calls for a
factory at New Westminster to cost
about one and a quarter million dol-
lars and capable of handling one
thousand tons of beets a day. The
subsidy asked of the government
would amount to one-half cent per
pound on all sugar produced up to ten
million pounds.It's a wise father who knows his
own flivver after his son has given it
a whirl.**GEOLOGICAL REPORT**A report by Dr. J. F. Walker on
the geology and mineral deposits of
the Winlaw district, British Colum-
bia, has been published by the
geological survey. The area is un-
derlain to a great extent by sedi-
mentary formations of Precambrian
age. Correlations are made between
these formations and similar Pre-
cambrian sediments farther south
described by Dr. S. J. Schofield and
Dr. R. A. Daly. The age relations
ships of the Palaeozoic formations
exposed in the eastern part of the
area are also matters of careful con-
sideration.The most important mineral de-
posits are lead-silver and lead-silver-
zinc. They are of the fissure and
bed-vein type and are generally as-
sociated with minor flexures on the
limbs of large folds. The leading
properties are described. Copies of
the report may be had on application
to the Director, Geological Survey, Ot-
tawa, or 510 Winch Building, Van-
couver.A most pleasant time was had at
dental parlors of Dr. R. K. Lillie on
Friday afternoon last, the occasion
being the frustrating of a small
amount of the same brand of punish-
ment upon the dentist that he has
had the pleasure for some time of
administering. One molar was re-
moved by Dr. McConachie in the
presence of seven delighted and in-
terested friends. Lillie says he will
not be "at home" for such a per-
formance for many years to come.**Miss Enid B. Gole**

WORLD HAPPENINGS
BRIEFLY TOLD

The third biennial convention of the World's Federation of Education Societies will meet in Toronto, Aug. 4 to 10, 1927.

Premier Taschereau, of Quebec, declared there will be no provincial elections this year. "The people of Canada have enough to consider and solve already," he remarked.

Films of British cabinet members are to be sent to British seaside resorts, where the pictures of Premier Baldwin, Foreign Secretary Chamberlain and others will be offered as programme features.

Professional mendicants, of Hamilton, who establish themselves on the downtown streets and seek alms by playing various instruments or selling small wares are to be ordered off the streets by the chief of police.

Hon. W. G. Ormsby-Gore, under-secretary of state for the dominion, states that he is not aware of any change being made in the arrangements for the imperial conference owing to the situation in Canada.

Arsenio Musolino, brother of Italy's premier, has challenged General Benito Mussolini to a duel. The challenge follows critical comments by the general, who is a well-known leader of the opposition to the Fascist Government, on an article written by the premier's brother.

Less than one per cent of the cattle tested in the tuberculousity-free area, which is being established in Saskatchewan in the Last Mountain district, have reacted to the test so far, and Hon. C. M. Hamilton, minister of agriculture for the province, is highly gratified at the splendid showing of the cattle in this territory.

The minimum demand for agricultural machinery in Russia for the current year is estimated at 120,135 million pre-war rubles, according to a statement in the forthcoming issue of the Commercial Intelligence Journal.

Three large steamships operated by the United American Lines—the Resolute, Reliance and Cleveland—have been sold to the Hamburg-American line in exchange for a financial interest in the German company.

Russians To Colonize Wrangell

Have Renamed This Barren Waste As Lenin Mirnoff.

A Russian expedition, headed by a colonel Wrangell, is to colonize Wrangell Island in the Arctic Ocean, north of Siberia, and rename it Lenin Mirnoff.

The expedition, in a Russian icebreaker, the Krassy Otkrit (Red October) was scheduled to leave Bay Cape, Siberia, on the west side of Bering Straits, June 25 for the island, or Mirnoff, rechristened in memory of Nicholas Lenin, considered the creator of Soviet Russia.

To Wrangell Island, for whose exploration and colonization loss of 13 lives in three expeditions has been listed in 13 years, the Krassy Otkrit was taking 20 families of Chukchees (Siberian Eskimos) 100 dogs, and 25 reindeer. Equipment of the colony includes 3,000 rubber pelts for clothing, and six large Eskimo skin boats. Provisions on the Red October for Lenin Mirnoff were calculated to last three years. Those familiar with the survey of Wrangell Island (or Lenin Mirnoff) pronounce it uninhabitable. This because of cold, inaccessibility, absence of fuel and extreme scarcity of food.

Royalty Engages In Business

Russian Court Women Meet With Success In Commerce

The manner in which ladies of the Russian court have fitted themselves into the life of commerce in Paris is a matter of much comment in the French press.

The Grand Duchess Marie went to work as an ordinary woman in a French embroidery house to learn her chosen profession, and now employs dozens of her courtiers in her own place. In another dressmaking establishment, Princess Obolenski is the cashier and bookkeeper. Princess Troubetzkoy is the general manager of the cutting room and Mlle. Amshoff has charge of fittings.

New Settlers Satisfied In Alberta

More than 500 families have been located in Alberta in the last year under the 5,000 family scheme, according to W. S. Woods, of the land settlement board. Mr. Woods states that the newcomers are doing splendidly and are well satisfied with their present conditions and their prospects.

The average man loses five and a half days a year through illness between the ages of twenty and thirty; twenty days between the ages of fifty and sixty.

French War Debt

British-French Agreement Is Wide In Scope

An agreement was signed recently for the funding of the French war debt to Great Britain, after a conference between Winston Churchill, chancellor of the British exchequer, and Joseph Caillaux, French minister of finance, and a subsequent discussion with treasury officials to draft the terms of the agreement.

The settlement covers not only the French war debt, but virtually all the outstanding accounts between Great Britain and France. Announcement of this effect was made in the House of Commons by Rt. Hon. Winston Churchill, chancellor of the exchequer.

The French payments, he said, would be £4,000,000; £5,000,000; £3,000,000 and £10,000,000, rising to £12,500,000 annually, the last named figure being reached in 1930.

From 1929 to 1935, the payment would be £12,500,000 annually, rising to £14,000,000 for the final 31 years. Mr. Caillaux expressed himself as greatly pleased with his reception in London and especially with Mr. Churchill's hospitality.

The full payment terms are £12,500,000 for 62 years and France will not be required to pay the deficiency of these five years of partial moratorium until after a long period, probably 25 or 30 years. The £12,500,000 of French gold now held in the Bank of England as a pledge, will henceforth be regarded as part of the reserve of the Bank of France. There is also a safeguarding clause to protect France's interests should Germany default in her reparations payments.

France also is granted a transfer clause, whereby, in the event of her large payment to Britain, the annual payment will be postponed.

The minimum demand for agricultural machinery in Russia for the current year is estimated at 120,135 million pre-war rubles, according to a statement in the forthcoming issue of the Commercial Intelligence Journal.

Three large steamships operated by the United American Lines—the Resolute, Reliance and Cleveland—have been sold to the Hamburg-American line in exchange for a financial interest in the German company.

Japanese Nobleman
Passes Through Canada

The Right Honorable Viscount
Kelmata Matsudaira, attaché to His
Imperial Highness Prince Chichibu,

second son of the Emperor of Japan, has just gone across Canada after landing at Quebec on the S.S. Empress of France, and from Montreal, Windsor station, where he was photographed, by Trans-Canada Limited to Vancouver where he will sail for Yokohama for a few months vacation with his family. The Viscount was educated at Balliol College, Oxford, and stated that Prince Chichibu was also entering Oxford this next term and will occupy the rooms at Magdalen College formerly in use by the Prince of Wales. He said that Anglo-Japanese relations were of the most cordial description especially those obtaining between the respective royal families of the two countries. "While this was the third time he had passed through the Dominion he had never been able to stay here for any length of time and looked forward to the day when he would sample some of the hunting and fishing facilities of the country, especially British Columbia, which is within a twenty-day return trip of Japan. The Viscount will return through Canada to England in the fall.

Requests for such work are said to have been received from Africa, India and Australia. One man in British West Africa, a German firm in Germany, enclosing a pound note, to each as a sample and ordering several thousand reproductions. He directed that the counterfeited notes be shipped inside the continent. The counterfeiters turned the letters over to the Reichsbank which notified the Bank of England.

The British Government, through the German embassy, thanked the German firm for its exposure and sent a reward of 50 pounds.

Canada Wins Kolapore Cup

Canadian Marksmen Defeat Picked
Teams to Gain Trophy

Representatives of the colony of Canada, won the Imperial Kolapore Cup, one of the greatest series rifle matches at Bisleigh. The Canada marksmen defeated picked teams of eight from the Mother Country, India, the United States and the Gold Coast, to hold the trophy by six points.

The team selected from Canada's Bisleigh contingent, including Lieut. Diamond Burke, of Ottawa, King's prize winner of two years ago, led by ten points after the first round of ten shots at 300 yards. They increased this lead to 14 points at the 500-yard distance and though it was cut down at the final shoot at 600 yards, still were victorious by a moderately substantial margin.

Road Improvements

Announcement Made of Awarding of
Contract for the Work in
Saskatchewan

Announcement is made by the deputy minister of highways, province of Saskatchewan, that the contract for improvement of road from Midale to Hailbricht has been awarded to Oliver Hanson and Oscar Hanson, of Estevan, Sask., at approximately \$14,500. A similar contract for improvement of road from Morse, south across Red Lake, three miles, has been awarded to Fred McLeod, of Calgary, Alta., at approximately \$25,000, and the contract for improvement of road from Baldwin to Freemont, has been awarded to H. S. Stewart, of Battleford, Sask., at approximately \$14,500.

Calgary's Population

Calgary and district has a population of 77,980, according to the latest city directory. The directory takes in portions of the cutting business districts for business purposes, but Calgary city officials estimate the population at 75,000.

Strange Romantic Love Adventures of the Gapper you know

by H.L. GATES

Copyright 1925 by H.L. GATES

Published by arrangement with First National Pictures, Inc.

THE STORY THIS FAR

Joanna, a modern, pretty, shop girl to have a million dollars to spend. Graydon, her employer, tells her. There are no "conditions." She is not even to know the name of her benefactor. Nothing more than this can be learned from banker Eggleston. nor his slave, man-about-town nephew who helps her write her first check and tells her that he intends to make love to her. Dazed by the sudden flood of untold wealth, cradled by the fact that her shop girl friends will not believe she gained it honorably she is comforted by John, her childhood sweetheart. He also seems to her, a scene of bliss. Joanna crushed sinks to the floor. Later she finds that Mrs. Adams, her husband's do believe in her. The next day is to be dedicated to George, a shop girl companion. They plan to spend some of the fortune for luxury.

CHAPTER IX.—(Continued).

"Tricks," she confessed, laughing to him. "I could hold my own with George—she's been rather a chum, you know—or with any of the rest. If they had somebody I wanted I usually landed them. If I tried, and I have to start early to get anyone away from me—but now, well, I'm in for new competition now."

A woman, a young woman, whose sleek black hair curled to a beautifully formed head, a woman whose eyes were black eyes that suggested two flowers of night, hovered close to the table and paused. An observer would have thought that she had stopped, and was about to speak to one or the other of the pair at the table. But she moved on, her slender hand fluttering at her escort's sleeve. Only one who observed very closely would have detected the almost imperceptible signal that Brandon passed to her with a gesture of his elegant, Joanna was not even conscious of the little tableau of an instant. A Brandon kept her attention.

"You think, then, that your problems will have to do mostly with what you are calling competition from your own sex? That implies that your plans, when formed, will be a conquest of men?" Joanna's brow wrinkled. "That sounds as if I'd admitted something I shouldn't. Won't you tell me what?" "But you haven't," he protested, earnestly. "What else should there be for you to plan—but to bring the

DOCTOR ADVISED OPERATION FOR MRS. PENN

She Escaped It by Taking Lydia E. Pinkham's Vegetable Compound

Windsor, Ont.—"After the birth of my first baby I was very much run down in health and the doctor I must have an operation as I was suffering from a displacement. A friend wanted me to try your medicine—Lydia E. Pinkham's Vegetable Compound—and I took it steadily for a year. During this time I was carrying my second baby and I felt real well all the time and did not have a hard confinement. I feel sure the Vegetable Compound did me a lot of good, and all my people do, too. One girl in Leamington, Ontario, takes it, and both sisters praise it as a good medicine. I am more than pleased with the result."—Mrs. W. Penn, Windsor, Ontario.

Mrs. Corbin Relieved from Pain Stewiecke, N. S.—"It has been two years ago that I was very much run down in health and the doctor I must have an operation as I was suffering from a displacement. A friend wanted me to try your medicine—Lydia E. Pinkham's Vegetable Compound—and I took it steadily for a year. During this time I was carrying my second baby and I felt real well all the time and did not have a hard confinement. I feel sure the Vegetable Compound did me a lot of good, and all my people do, too. One girl in Leamington, Ontario, takes it, and both sisters praise it as a good medicine. I am more than pleased with the result."—Mrs. W. Penn, Windsor, Ontario.

W. N. U. 1023

Brandon made his presentation early. Joanna caught the softness of a foreign sounding name, and heard that Brandon called the stranger, "Auntie." Despite the pretences, Joanna sensed, instinctively, that this meeting had been arranged.

CHAPTER X.

Joanna Meets Another Suitor.

In the sudden cascade of small talk with which the newcomers were seated into their places at the table by two waiters, each more exuberant than the other, Joanna was vaguely uncomfortable—out of her accustomed depths. Her store of smart things seemed utterly inadequate to the easy greetings and perflage. Within her own experiences, introductory conversations took one of the other two set courses—herself, or "himself." She was never content with either. Men, whether they liked her or not. Not the ones who came and went across her horizon. They were all like her, merely rivals, equipped as she was, with the common weapons of our modern flapperhood—like always, adapted for classes, a ready wisdom that guarded those lips when occasions arose, clothes that added to the lure of her and a skill at defense or attack.

In Joanna's scheme of things, any girl, these days, must be ready instantly to take the defense or launch an attack—one or the other was certain to be necessary. She and George got along splendidly in the induction of all new acquaintances among the available supply of properly mannered, good-looking young chaps who were places to go. She considered now when she stole a glance at the man who had come with the woman with the sleek, black hair, that by the time he had said, "How do you do?" to George, that little lady would have blithely inquired of him:

"Well now, look who's here. Why do you think you amount to so much?" And she reflected that, this time, George would get the worst of it in any such encounter. As she had concluded a moment before, at her first sight of him, Kentworth—"Roddy," Brandon had called him—was made in the same mold as Brandon, but there was a difference. She disliked Brandon, because she feared that he was to have some tragic influence over her and her mysterious future, but she admitted he wouldn't hurt her. He would not be the sort who would plot for small favor. If he should want to amuse himself with a woman, he would aim at her soul. She knew the kind—and the danger they embodied.

(To be continued)

Good Paying Investment

Britain Has Large Revenue From Shares In Suez Canal

The Empress Eugenie of France was one of the first passengers taken aboard the Suez Canal when it was officially opened to traffic in 1869. She was aboard the first vessel passed through. Disraeli's purchase of the shares in the Suez Canal which had been held by the Khedive of Egypt, on November 25, 1875, was considered his boldest and finest stroke. This move Great Britain's position in Egypt and the Near East was greatly strengthened. Not only was France curbed but the British nation received an investment that has more than quadrupled in capital value during the fifty years that have elapsed.

Sewing machines were found to be the most popular labor-saving devices in a typical country district surveyed in Ohio. Eighty-eight out of a hundred homes owned them.

Lake Superior, the largest expanse of fresh water in the world, has an area of 21,800 square miles.

Of the 5,788,600 people in Canada, 4,685,900 are of British stock—fifty-five per cent.

Cuticura Preparations For All The Family

For generations Cuticura Soap and Ointment have afforded the most certain and most satisfactory method of promoting and maintaining a healthy condition of the skin. Tender-faced men and women find the freely-lathering Cuticura Shaving Stick a necessity. Cuticura is so ideal for young, cooling and refreshing.

Sample Soap Free by Mail. Address: Canadian Agents, The Cuticura Soap Co., Ltd., 100 St. George Street, Montreal, P. Q.

WILSON'S FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Drugists and General Stores—10c and 25c per package.

U. S. History Re-Written

Revised Histories For Use in American Public Schools

Antagonism to Britain has been a dominating note in the public school histories of many of the United States down through a century. George III. has been the bete noir of the American common school. Braddock, Burgoyne and Cornwallis have been made to middling agree and the Boston tea party has been a prank to rank with Pickett's charge. This has all been natural, considering the frailty of human nature, whether American or Canadian.

Now it appears that a new group of histories of the United States, for use in the public schools, is making its appearance. The world war put the old geographies in the same class as a car without a self-starter and it made the old school histories as out of date as a photograph with a horn. This new series, it would seem from various reviews of them, we notice in the American papers, has considerably upset the old lines of antagonism. Britain comes in for more friendly attention. The Kaiser takes fat George's place in the ducking pool. You Taxis and one Hindenburg now outrank, as objects of scorn, those other Germans who drank much Christian liquor the night that Washington crossed the Delaware.

We wonder what some Anglophobe newspaper thinks of the new histories. Perhaps they have not seen yet, their editors being more interested in divorce, scandals, bobbed hair and bootee, evidences of modern civilization, than in the records of other days—Financial Post.

Historic House For U. S.

Transferring History From England to the United States

The Chantry House, Hiltierick, Essex, the birth place of the first of the Pilgrim Fathers, has been sold in London to an American for \$10,000. The house will be removed to Boston, where the Pilgrim Fathers landed, and re-erected there. The Pilgrims all assembled in this house before embarking in the Mayflower. Earlier in the year another historic English residence, Warwick Priory, was sold and shipped to an American purchaser, and Agassotti Hall, near Manchester, was similarly purchased. Royton Hall, the home for more than 400 years of the Byron family, is stated to be in danger of being sold, an offer having been received by its owner, Dr. J. T. Godfrey, from an American.

No child should be allowed to suffer from worms when prompt relief can be got in a simple but strong remedy—Mutter's Worm Expeller.

The Keyless Lock

Is Fitted With a Combination Like a Safe

Something new in the way of locks is the keyless style. This invention works with a combination like that of a safe, and thus saves the carrying of a bulky key.

The combination is controlled by a series of ten rings along the edge of the lock, capable of 1,024 combinations of which the owner may take his choice. Since it is worked by touch the owner can, after a little practice, open it in the dark. No remedy is suggested in case the owner forgets the combination. Popular Science Monthly.

A Hard Task

The absent-minded drawing-master halted a cab at the deserted village station. When the cab came up he stood for a few minutes looking at the horse. Suddenly pointing to it, he demanded:

"Is that?" "A horse, sir," growled the cabby. "Then rub it out and do it again, sir," said the drawing-master.

After a man secures a girl's hand he sometimes finds she has him under her thumb.

It must be hard on the fingers of mutes to crack jokes.

Minard's Liniment for Burns

Hygienic Clothing

Modern Dress Tends to Lengthen the Lines of the Body

After a great many people inveighing against the modern dress of women, and declaring all sorts of horrible things about short skirts, blighted heads, no corsets, etc., I happened to see an article the other day in which some kind and sympathetic penman, several of them, said that the present-day dress is the most sensible that women have ever worn. In fact one authority states that when women shortened their skirts they lengthened their lives, because long skirts were so bad for them. I can't help feeling a sort of shrinking back that women won't lengthen their lives any more by shortening skirts to the way to it. The poor little things—I mean the skirts, you know—haven't got much more than they can spare. Also, I read the small amount of undergarments that women wear now is conducive to health, and not the reverse; and if men would only take example by us and scrap half the garments they wear, they might put five years on to their lives. It is all so pleasant and satisfactory to know that we are walking on the right road, isn't it? and making progress.—Glasgow Herald.

Hidden Beauty In An Opal

Colors in This Gem Are Said to be Never Twice Alike

The opal is now one of the most popular gems, and women who have always been unresponsive about opals are now buying them.

"People realize at last that there is hidden beauty in an opal," said the manager of one of the largest jewelers in London.

"If you look steadily into an opal you notice that the colors are never twice alike, and one can almost see the internal fire."

"One particular specimen of this stone which is selling well, looks almost like the eyes of a tiger."

"Black opals are also very popular. These come from Ceylon."

"The opal is an afternoon stone, and diamonds, pearls, and emeralds are worn in the evening. No woman who wishes to be to the height of fashion would wear an opal ring in the evening."

Little Helps For This Week

Trust in the Lord with all thine heart, and lean not unto thine own understanding. Prov. III, 5.

Oh let Thy sacred will be done! All Thy delight in me fulfill! Let me not think an action mine own.

But as Thy love shall lead, Resigning up the rudder to Thy skill, I'll follow Thee, my George Herbert.

Our helm is given up to a better guidance than our own. The course of events is quite too strong for any helmsman; and our little wherry is taken in two by the ship of the Great Admiral, which knows the way, and has the force to draw man and states and planets to their good.

—Ralph Waldo Emerson.

Delicate instruments have been invented which enable an aviator to steer safely to a given point in the thickest fog.

"I hear you're moving nearer to London, McTavish. How's that?" "A crystal ball's as loud enough."

Canada saves twenty-seven million tons of coal a year through the use of water power. It is estimated.

Guards Flavour Of Your Meat

Strong in fibre—yet light in weight—Hercules and Ajax wrappers are exactly what every butcher requires. Either of these waxed papers does double duty—preserving moisture and grease—protecting the flavour of your meat.

By using Appleford wraps you impress customers with your standard of cleanliness. You save money because no inside waxed sheet is required. Ask for our prices.
